Data survey 01

Ramon Antonio Rodrigues Zalipynis
rodrigues@wikience.org

Data survey goal

You will have **home assignment** in Module (Quarter) 2

You should arrive at a task to be solved with your application

But start looking now for

- the available geospatial **data**
 - relevant and interesting **tasks**
- (that could be used/solved respectively)

Data surveys are held in the beginning of lessons (not every) to give examples of both data and tasks.

Climate reanalysis and Earth remote sensing

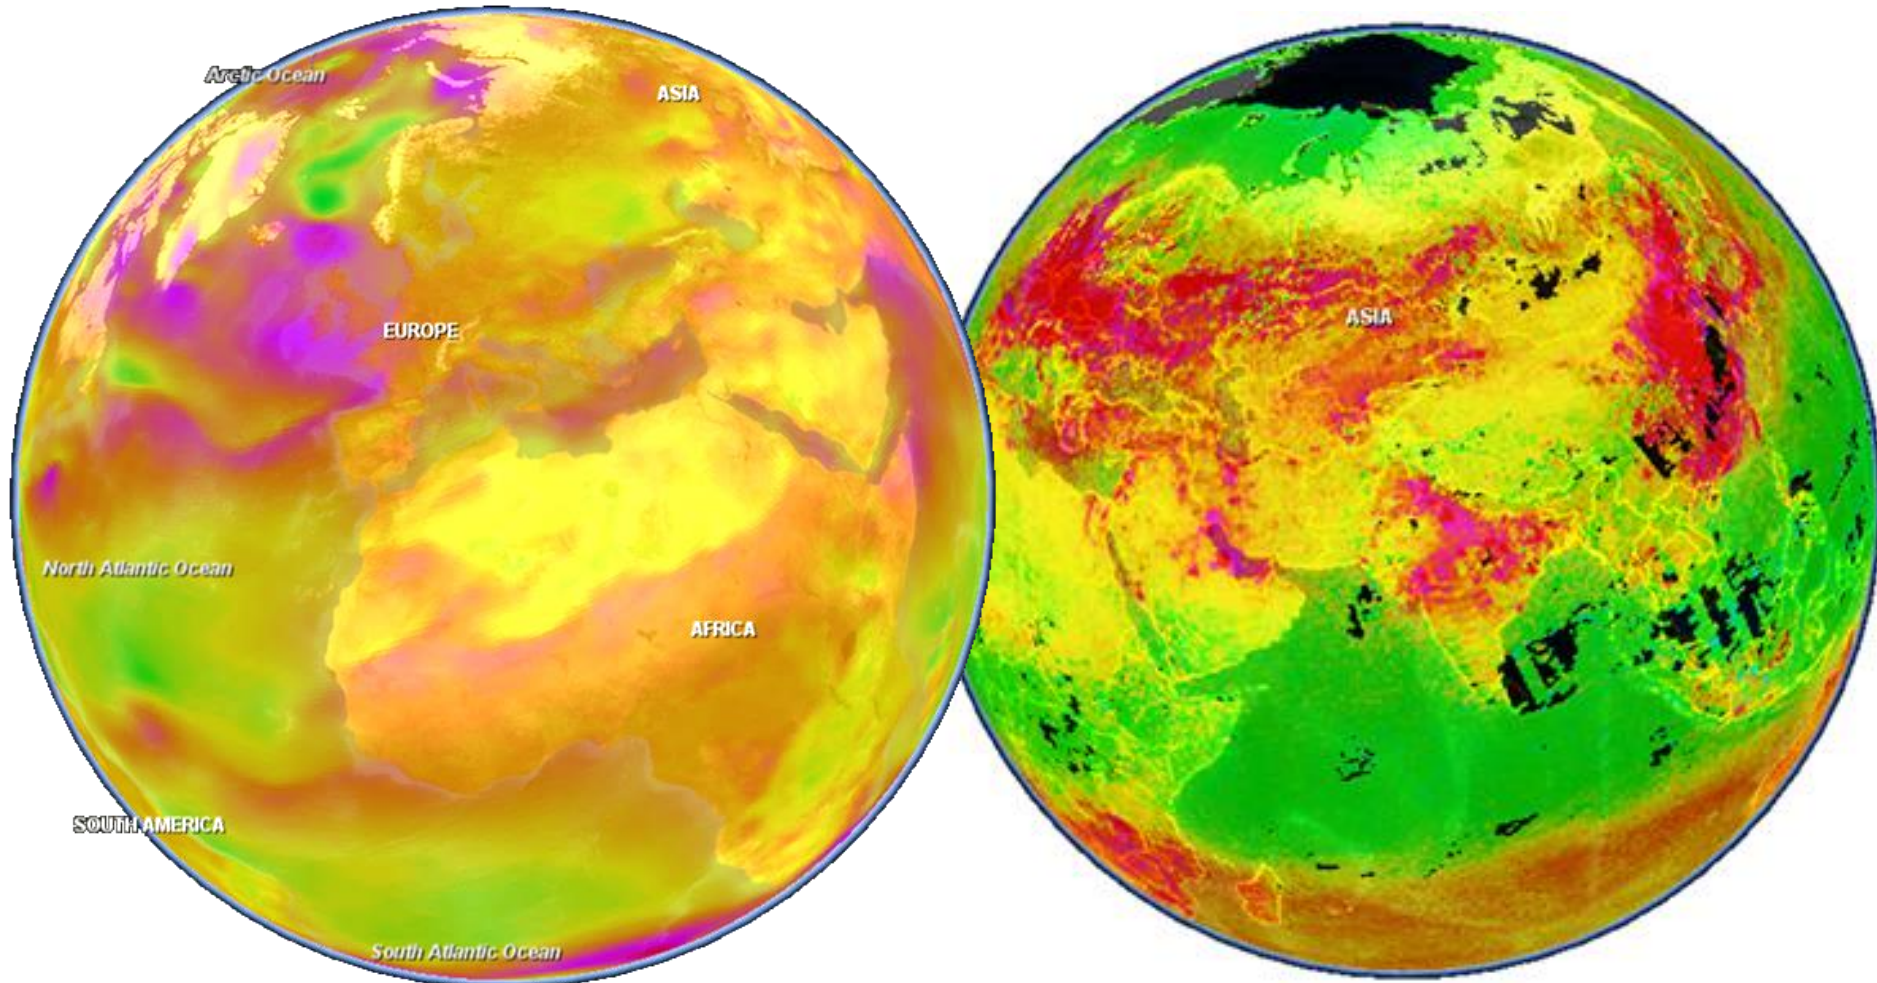

3

Please, see

<http://www.wikience.org/ru> for data list and links

What is the most sunny place on Earth?

Where are winds the most strong and permanent?
